Evolution - Automatic Calf Feeder

The ultimate calf feeding solution - the JFC Evolution Automatic Calf Feeder. This labour-saving device measures, mixes, and dispenses temperature-controlled milk to calves automatically. Once programmed it can differentiate between calves and feed their individual nutritional requirements supporting them to achieve their optimum growth potential. The Automatic Self-Cleaning cycle activates 4 times per day to cleanse the system for truly effortless calf feeding.

S2 Control Unit

CODE	DIMENSIONS (MM)
AF70	902 L x 680 W x 1263 H

- Feeds 2 calves simultaneously.
- Capacity to feed up to 70 calves.
- Single Hopper with capacity for 40kg of Calf Milk Replacer.

S4 Control Unit

CODE	DIMENSIONS (MM)
AF01	902 L x 740 W x 1263 H

- Feeds 4 calves simultaneously.
- Capacity to feed up to 140 calves.
- Dual Hopper with capacity for 2 x 30kg Calf Milk Replacer
- Flexibility to feed 2 different types of milk simultaneously.

Feeder Stall

CODE	DIMENSIONS (MM)
ST01	1449 L x 510 W x 1000 H

- Anti-backing bar supports initial calf training onto the system.
- Robust, durable and easy to clean.
- A Teat Spray Cleanse (optional) cleans each teat after use for enhanced hygiene standards.

Milk Karts

The Manual Milk Kart (170L) and ATV Milk Kart (340L) are available with a Mixer, Pump, Mixer and Pump or neither. Built to last, they are manufactured with a galvanised steel frame. These labour-saving devices provide consistently blended milk while reducing the separation of precious nutrients, and unnecessary foaming. The 170L model can mix a 20kg bag of milk replacer in just 4 minutes. Mixer and Pump Milk Karts dispense up to 7,500L milk at 36L/min on a single battery charge.

Electric Milk Warmer & Collar

CODE	DESCRIPTION
E3000	3,000 Watt Milk Warmer (<i>heat 140L of water to 40°C in 2hrs</i>)
HL350-HC	E3000 collar for use with our ATV/Manual Milk Karts

- High heating power band with step-less adjustable thermostat.
- Auto shut off when desired temperature is reached.

Teat Feeders

Each feeder is fitted with either an inverted or non-return valve teat to deliver milk by gravity feed. The teats encourage the natural sucking action allowing milk to be delivered to the animal at an optimum rate. Fitted with 2 sturdy hooks for mounting on a standard gate or fence. They are hygienic, easy to clean, disinfect due to the smooth, seamless polythene surface.

JFC Starter Teat (Blue)

CODE CT6

- Ideal for new born calves.
- The inverted nipple encourages the calf to suck thereby increasing saliva flow and enhancing milk digestion.
- This pull-through teat can be used on any feeder with a Ø22mm opening.

EazyFlow Teat

CODE CT9

- Fitted with a non-return valve preventing milk from flowing back into the feeder ensuring optimum delivery to the calf.
- This pull-through teat can be used on any feeder with a Ø22mm opening.
- Manufactured from natural rubber with a soft texture, but durable to last a complete calving season.

Gate Feeders

Manufactured from tough, medium-density polyethene these feeders are suitable for use both indoors and outdoors, durable and able to withstand severe impact. The fracture-resistant material and rounded edge design ensure animal safety. Finished with a smooth, seamless coating to reduce feed build-up and allow for easy cleaning and disinfection maintaining the highest standard of hygiene.

Calf Isolation Unit

Our Calf Isolation Unit is an individual calf housing unit ideal for the isolation of calves, ensuring the calf is kept warm and draught-free. Lightweight, easy to disinfect, comes with a bracket, a removable calf slat for drainage and heat lamp (bulb not included). An additional removable tray underneath the unit ensures that all waste is contained and can be disposed of separately to comply with Farm Assurance Schemes. Provides effective feed monitoring, reduces bedding requirements and can help to lower calf mortality rates.

Buckets not included
